Welcome to FSDM 2025!

Hosted by [Hanshan Normal University](#), the 11th International Conference on Fuzzy Systems and Data Mining (FSDM2025) will take place on the university campus in Chaozhou City, Guangdong Province, China, from November 14-17, 2025.

The conference agenda includes keynote addresses, invited talks, oral presentations, and poster sessions. Emphasizing areas such as Fuzzy Theory, Algorithms and Systems, Fuzzy Applications, Data Mining, and the interdisciplinary fields of Fuzzy Logic and Data Mining, FSDM2025 also welcomes special sessions focused on trending topics within related research domains.

FSDM2024 was successfully held in Matsue, Japan, from November 5-8, 2024. Previous conferences, including FSDM2023, FSDM2019 to FSDM2015, took place on-site in various cities: Chongqing (China), Kitakyushu (Japan), Bangkok (Thailand), Taiwan, Macau, and Shanghai (China). Due to the COVID-19 pandemic, FSDM2020, FSDM2021, and FSDM2022 were conducted as online events.

Chaozhou, the ancestral home of the Teochew people, is situated in the easternmost part of Guangdong Province, bordering Fujian Province to the east and Shantou to the south, with proximity to the South China Sea. Renowned for its rich cultural heritage, Chaozhou is celebrated for its Kungfu Tea ceremony, a distinctive traditional tea-drinking ritual that forms an integral component of the local cuisine. Additionally, it serves as a gateway along the Maritime Silk Road and is known as the hometown of overseas Chinese communities. With over two millennia of history, Chaozhou boasts numerous historical structures and artifacts (such as Guangji Bridge, Paifang Street, and Kaiyuan Temple) that embody the city's ancient splendor and allure.

On behalf of the organizing committee, we warmly invite scientists, experts, scholars, and technicians worldwide to join us for FSDM2025 in Chaozhou, China.

Important Dates

Dates Countdown 225 Days Left

Second Submission Deadline: May 15, 2025

Publication Guidelines

[more](#)

Accepted full papers will be published in the upcoming FSDM 2025 conference proceedings in the book series [Frontiers in Artificial Intelligence and Applications](#)(FAIA) indexed by EI Compendex, Scopus, ACM Digital Library, Google Scholar, CPCI, etc. Indexing information could be found at <http://www.frontiersinai.com/?q=indexing>

Selected papers from FSDM 2025 conference will be recommended to the following journals, including but not limited to:

remote sensing

Remote Sensing (IF=4.2) ISSN: 2072-4292

Special issue: [Remote Sensing Cross-Modal Research: Algorithms and Practices](#)

AIMS Mathematics

IF=1.8

ISSN: 2473-6988

Special issue: [General Algebraic Structures and Fuzzy Algebras](#)

electronics

an Open Access Journal by MDPI

[Electronics](#) (IF=2.6) ISSN: 2079-9292

Special issue: [Advances in Intelligent Data Analysis and Its Applications, 3rd Edition](#)

[Journal of Nonlinear and Convex Analysis \(JNCA\)](#)

IF=0.7

ISSN: 1345-4773 (Print);ISSN: 1880-5221 (Online)

mathematics

[Mathematics](#) (IF=2.3) ISSN: 2227-7390

Special issue: [Advances in Fuzzy Rough Sets and Intelligent Computing](#)

FSDM 2024 Best Awards

Congratulations to the three Best Oral Presenters from FSDM 2024, who have been awarded free registration to attend FSDM 2025 (excluding paper publication in the conference proceedings or related journals).

Special Session on "Applied Mathematics and Intelligent Algorithms for Modern Industry (AMIAMI)"

Dr.Tina Verma (FSDM4512), Thapar Institute of Engineering & Technology, India

Presented Title: An Approach for Optimizing Route Selection on Network with Shortest Path Problem Using Triangular type-2 Fuzzy Variable

Oral Session 1: Data Mining, Machine Learning and Neural Networks

Mr.Songkiat Lowmunkhong (FSDM4597), Suranaree University of Technology,

Thailand

Presented Title: Performance Assessment of Fourier Convolutional Neural Networks in Medical Image Analysis for Breast Cancer Diagnosis

Oral Session 2: Interdisciplinary Field of Fuzzy System and Data Mining & Special Sessions on "Application of Generative AI" and "Safeguard AI-based Automotive and Automation Product"

Mr. Rainer Faller (FSDM4433), exida.com, LLC, USA

Presented Title: Explainable Statistical Evaluation and Enhancement of Automated Driving System Safety Architectures

FSDM 2024 Outstanding Conference Reviewer Award

Congratulations to the three Outstanding Conference Reviewers from FSDM 2024, who have been awarded free registration to attend FSDM 2025 (excluding paper publication in the conference proceedings or related journals).

Prof. Galina Ilieva, University of Plovdiv Paisii Hilendarski, Bulgaria

Assoc. Prof. Josep Arnal, University of Alicante, Spain

Dr. Bokai Liu, Umeå University, Sweden

News

NEW 1. [FSDM2024 conference proceedings](#) have been indexed by EI and Scopus in two months after publication in volume 398 of the book series of Frontiers in Artificial Intelligence and Applications (FAIA). [2025-2-24]

2. All the accepted papers for [FSDM2024 conference proceedings](#) have been published online with open access in volume 398 of the book series of Frontiers in Artificial Intelligence and Applications (FAIA) with ISBN: 978-1-64368-569-4 (online), ISSN: 0922-6389 (print)/1879-8314 (online). [2024-12-24]

3. The selected papers from the FSDM conference on the specific topic 'Machine Learning and Intelligent Systems' have been indexed by SCIE (Web of Science) following their publication in the Journal of Nonlinear and Convex Analysis (JNCA), Volume 25, [Numbers 4, 5](#), and [6](#), 2024. The publication date was June 10, 2024. [2024-8-5]
